READY, SET, ROLL...

Bring your bike, a spirit of adventure and make Mt Buller your huge, bike-friendly backyard this summer!

Take your pick from a scenic road climb, explore the vast network of trails across Mt Buller and Mt Stirling, get a gravity fix or cruise around the village with the cool kids. If it involves rolling rubber-side down there's something for you up here.

A BIT ABOUT US:

There are lots of great reasons to get on your bike. Here are just a few.

- Start and end your day in the Village Square where you can warm up with some pedal-free laps around the bright orange pump track, get local intel and refill your water bottle
- Tear downhill and ride the chairlift back up for a gravity packed day on the northern slopes of Mt Buller
- Stonefly – one of Australia's top rated trails serving up 10kms of endurance excellence and a generous descent to finish
- Make a splash through multiple river crossings and beautiful log bridges as you savour the long, sweet meandering of the Delatite River Trail. Start on top of Mt Buller and finish with a lazy picnic at Mirimbah. Take a dip in the Delatite to cool off
- Over 40kms of single track
- 10kms of newly built trails expand your options including fresh gravity links between the northern slopes to the Delatite River Trail
- Convenient shuttle services link valley to Mt Buller village with pick ups also available at Plough Shed
- Bike friendly facilities including accommodation with storage and bike wash stations to keep your rig clean
- A lively event calendar each summer including races, bike events and festival fun

FRIENDLY LOCALS ARE HERE TO HELP

Connect with bike-loving locals who know, live and love the trails. If you need help with bike rental, repairs, gear, guiding, clinics or shuttles someone is on hand with the inside track.

The trails open progressively from the first weekend in November with the network usually clear and pedal-ready by early December.

The Northside Express Chairlift will carry you and your bike up top. Usual operations are weekends from the start of December through to Easter. The lift rolls daily for 10 days from Boxing Day with single, multi-day and season passes available online.

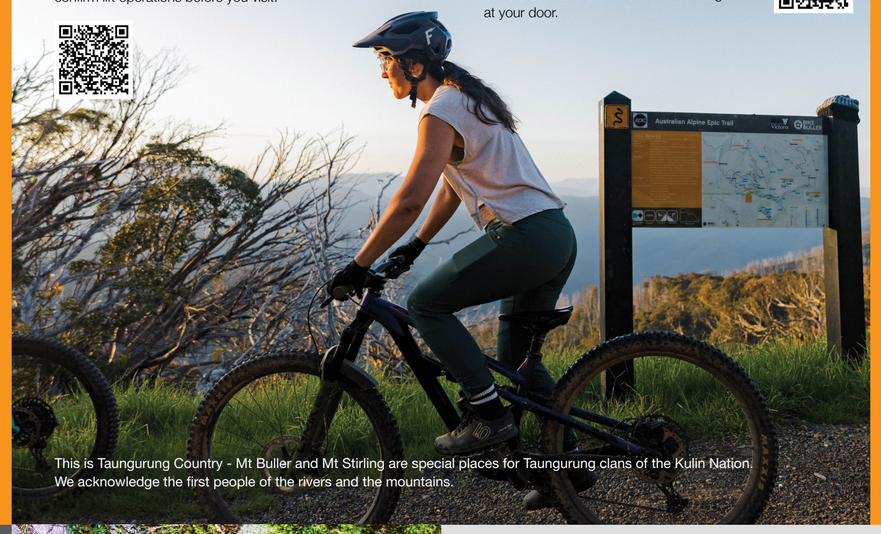

SCAN for more information on the trail network and to confirm lift operations before you visit.

...AND RELAX

When you're done riding, you'll want a tasty meal, a cold brew and a sunset view. SCAN for what's on and open to round out your ride experience.

STAY THE NIGHT– WITH YOUR BIKE

Stay for the sunset and fit more into your Bike Buller stay. Choose bike-friendly accommodation in the Mt Buller village with self-catering apartments, relaxed lodges or hotel rooms available and the trails right at your door.

This is Taungurung Country - Mt Buller and Mt Stirling are special places for Taungurung clans of the Kulin Nation. We acknowledge the first people of the rivers and the mountains.

SAFETY

Mountain biking can be hazardous. Trails may include unmarked hazards. Riders attempting these tracks do so at their own risk. The trails shown are graded according to difficulty. Choose a trail that matches your fitness, ability and equipment. Ride within your limits. Let someone know where you are going, and when you plan to return. It is recommended to wear full face helmets / armour, but personal protective equipment is at the riders discretion.

This brochure is intended as a guide only.

Emergency Markers

Emergency markers are located throughout resort, identifying your position to emergency services. Call 000 and quote the number on the nearest marker. Resort Management (ARV) is available on (03) 5777 6077 during business hours for general enquiries.

Shared Trails

The Mt Buller and Mt Stirling trails are shared by hikers, trail runners and, on Mt Stirling, horses.

Look for the SHARED TRAIL signs. Stop, dismount and give way to horses and be aware of pedestrians, especially on blind corners.

Trail Map App

A GPS and reliable App such as **Trailforks** is a smart idea. So is a fully charged device (and spare batteries). Some sections of the trails have poor reception so keep a paper map handy and always share your trip plan.

Mountain Bike Conduct

Head to **mtbuller.com.au** for the Bike Buller MTB Code of Conduct.

Bike Hygiene

To avoid the spread of unwanted weeds and pathogens, and to protect the Australian Alpine environment, please ensure all footwear, bikes and equipment are cleaned before you arrive, and after you leave the resort.

TRAILS & UPLIFT

The trail network is bigger and better with 10kms of new trails in the 2026–2027 season and Northside Express Chairlift offering uplift. Convenient shuttle services link the valley to the village, so you get more downhill in your day.
